WINES

we have designed our wine list to be as simple and sustainable as possible. the majority of our wine is locally sourced, using wine makers and viticulturists who like to let the wines do the talking. whilst not all of our wines are organic or biodynamic certified they all use minimal intervention methods when creating their wines.

our house wines have been made with our good friends at **castagna**, one of the premier bio-dynamic wine makers going around whose philosophy is with the intention to make, as simply as possible, wine which is an expression of the place where it is grown.

SPIRITS

we have sourced all our spirits from different areas around australia. from right here in sydney to kununurra, western australia. we had to cheat a little bit when it came to tequila, whilst not made in australia, it is completely australian owned.

whilst you may not be able to recognise much of the list or rely on your familiar friends, tell us what you like and our expert team will be able to point you in the right direction.
